ONLINE SALT PROGRAM
An invitation to experience the facilitation of Local Response

You are willing to stimulate and support local initiatives carried by communities around you? You would like to get more support to accompany communities to discuss important issues and take action to reach their dream? You want to learn how to stimulate ownership within a group? You want to improve your facilitation skills and be more appreciative in your way of working and thinking?

This program is made for you!

After 12 years of experience facilitating local responses around the world, the Constellation now offers the opportunity to more individuals and communities around the world to recognise and respect their common humanity, and live out their full potential to contribute to society as a whole.

In order to achieve its dream, Constellation has developed an online program to accompany individuals in their growing process to become facilitators of Local Responses in their context.

What to expect in this program?
The program is designed to support people in being more effective as facilitators of Local Responses in their context.

It’s an empowering, fun and interactive program where you will learn from your own experience and the lessons from other facilitators across the globe.

You define the community you want to work with. Maybe it’s your working team, your family, your group of neighbors or a community of people addressing a shared concern. Then, you, together with two dedicated participants and an experienced facilitator of the Constellation, will join in conversations that will give you the support, feedback and motivation to:

- Strengthen your facilitation skills;
- Be more appreciative in your daily life and with the group of people you accompany;
- Learn from your own and others’ experiences.

“When you first told us it would have an impact on our whole life, I could not imagine… Now I know. The modules are very delicately composed and have a good balance between reading and hearing about experiences with CLCP in different communities on one hand, and having own experiences by walking through the modules. Also the balance between learning individually, in triad and in practice is useful.” Suse

All of this is supported by 6 modules of materials including videos, readings and exercises.
The program happens in real time – so you get to put into practice immediately what you learn.

You’ll experiment a different way of thinking and interacting within a group, gain experiences and tools to accompany and stimulate community reflections and actions.

**The programme includes**

- 9 hours of live interactive coaching
- 3 selected participants
- A dedicated certified facilitator
- A private forum to connect with your triad
- 6 modules of content
- A schedule customized to your life style

**To register ...**

You want to know if this program is for you, and want to get more information about price and conditions, contact Luc Barriere-Constantin ([luc@communitylifecompétence.org](mailto:luc@communitylifecompétence.org)) to set up a conversation.
